# NEEKO SERIES

24V/48V

## 5MM WIDE

Powerful lighting, flexible high magnetic lamp everything on the track, do not need multiple holes, hidden lines, and can be equipped with different lamps.

There are many light source modules of magnetic lamps, including floodlight, grille, spotlights, chandeliers, etc., which can meet a variety of space lighting, and can also freely increase or decrease the number of lamps, free movement, and free Angle adjustment.

The background of the advertisement is a photograph of a modern interior space. Two long, dark grey magnetic track lighting fixtures are mounted on a light-colored wall. The fixture in the foreground is angled downwards and to the right, showing its side profile with a white light strip. The second fixture is mounted higher and further back, showing its top profile with a series of small, triangular light apertures. The wall has a subtle texture, and the floor is a solid, warm brown color.

# NEEKO SERIES

## MAGNETIC TRACK

Let the space more choices.

Aluminum profile processing is more flexible, to provide more style choices, delicate and diverse surface treatment is to meet the different personality preferences of consumers

## COMPILATION

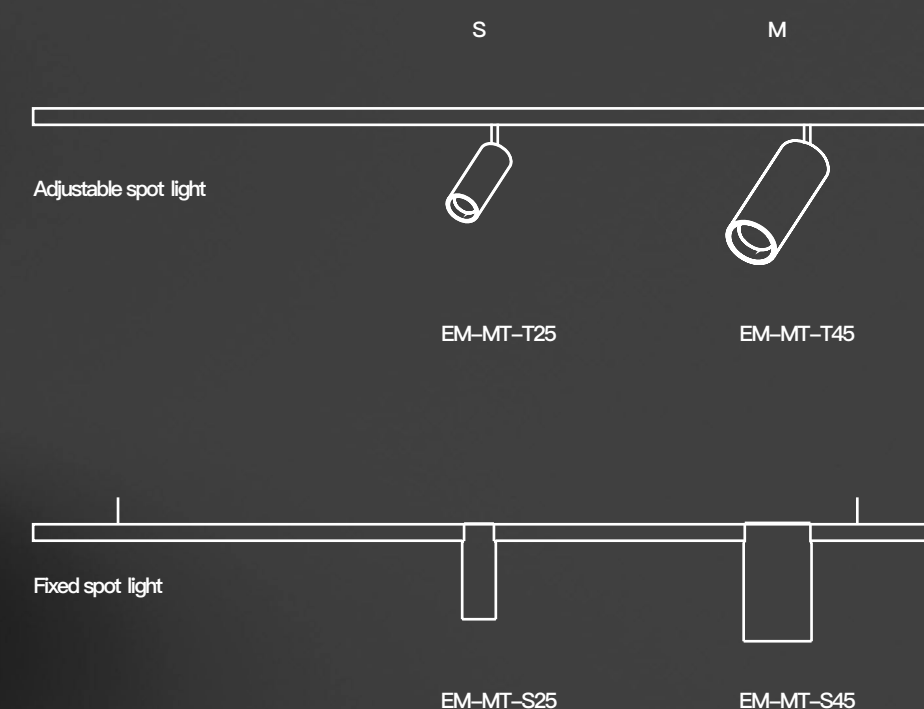

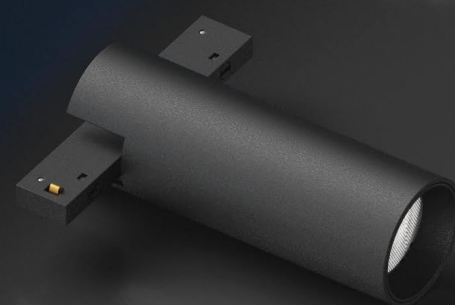

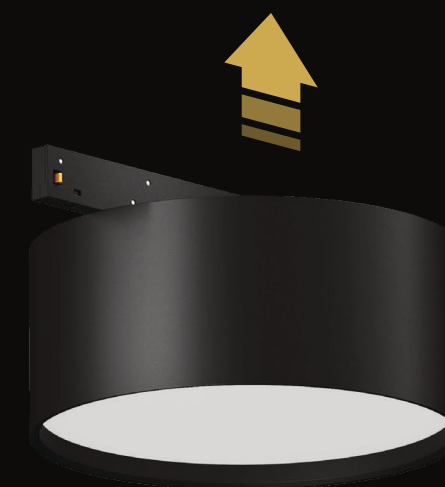

## SMALL SIZE

Small magnetic lamp is available in two sizes optimised for different applications. We have significantly miniaturised the luminaire dimensions of Neeko size S to a diameter of only 25 mm.

Ideal for small exhibits and shop windows as well as for private use at very short distances

## SAFETY CLIP

Safety high magnetic lamp mostly uses 24V or 48V low voltage design

There is no danger of electric shock when installing replacement lamps or touching the track directly by hand.

The lamp has a safety buckle stuck in the inner wall of the track, and the buckle will be released by turning the safety button

The high level of appearance and comfortable space is even more attractive. Neeko series, can be full of science and technology, can also be warm, let you rest assured that the free collocation, it in the form of point, line, surface lighting, highlighting the sense of space and line sense of the building, so that simple lines balance the space feeling, give people more imagination.

This spotlight provides intense illumination with excellent energy efficiency while emitting soft light that both highlights the artwork and creates a warm atmosphere inside
