Emilux智能照明是一家专注于灯具光学配件产品的技术开发以及照明灯具产品设计和生产的综合制造商。

We have our own professional R & D department, production line and sales team. After experiencing for many years of great efforts, our products have been extended to different areas, such as ceiling light, magnetic track light and downlight. Meanwhile, our company's sales network throughout lots of regions in our country.

专业研发,生产,销售LED商业照明,产品涵盖天花灯,筒灯,轨道灯等。经过多年的技术沉淀,产品销售网络已覆盖多个地区。

In the field of optics and commercial lighting, our products has been earned appreciations and received recognition from our consumers and designers.

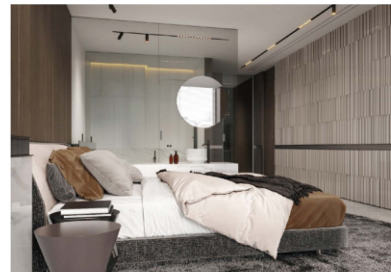

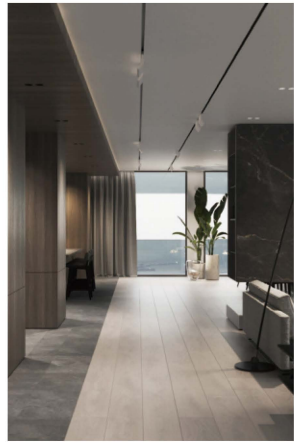

在所专注的光学领域、酒店会所照明领域、商业空间照明领域已经得到众多业主、消费者、照明设计师和装饰设计师的认可和赞誉。

Lamplight illuminates strewn at random of depth, have the effect with space outspread, make the person feels open and loosen, match with contemporary and contracted household environment, appearance is delicate and concise reveal savour again

SYSTEM

SYSTEM

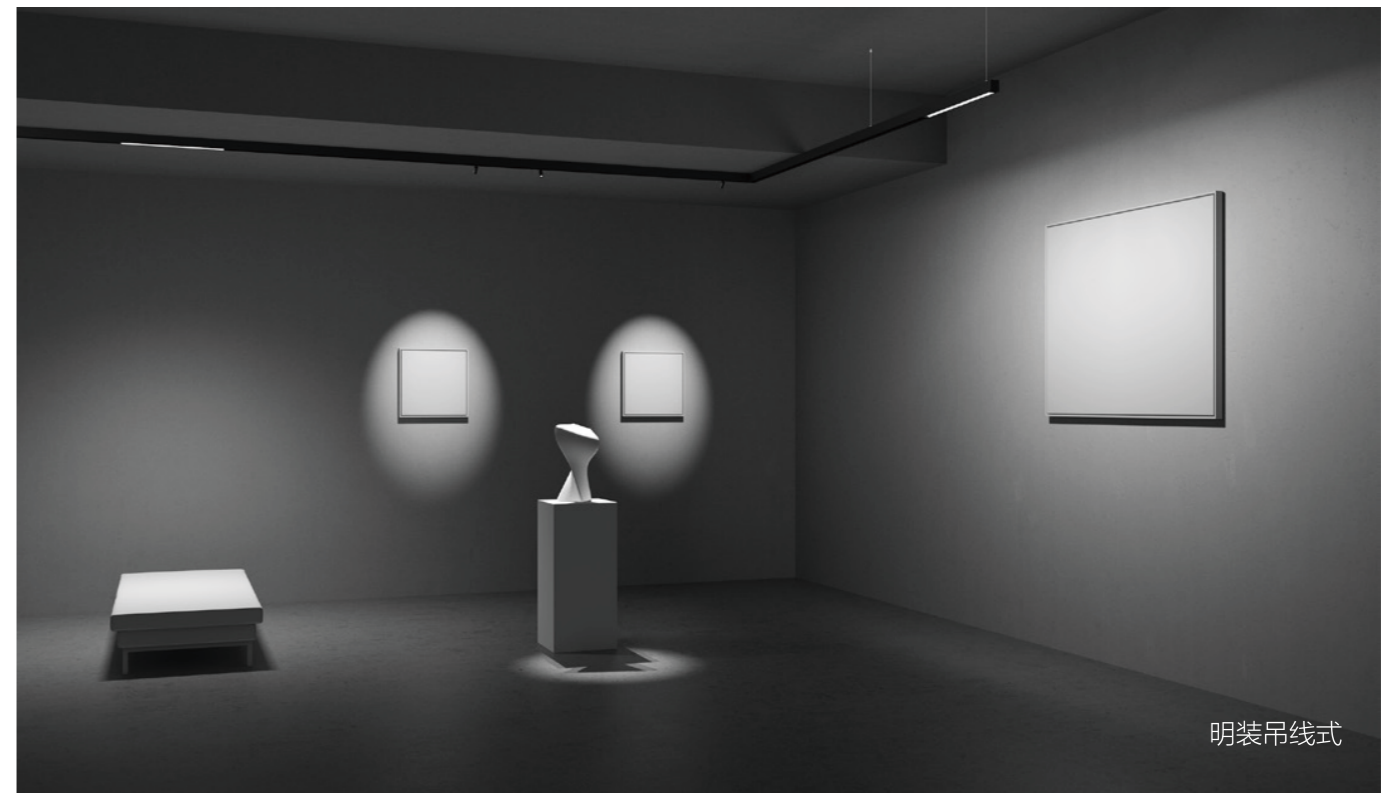

深浅的错落，有着空间延伸的效果，使人感觉开阔而放松，
与现代简约家居环境搭配，外形精致简洁又彰显品位。

The deep and shallow staggering has the effect of extending the space,
making people feel open and relaxed,
Paired with a modern minimalist home environment, the shape is
exquisite and concise, yet highlights the taste.

灵活的组合满足不同的空间需求

Be your own lighting designer

磁吸轨道通过不同的轨道槽配件组合成不同形体，满足相应空间与家具布置，更加灵活地形成虚拟有趣空间灯光区隔。

更加系统化的照明效果实现方案，提供了同时满足一个空间的多种照明需求，一般照明、重点照明、洗墙照明、区域任务照明甚至间接照明都可以轻松实现。

Easily Achieve different lighting, visual and physical effects with the flexibility of the combinations of magnetic tracks and lamps. Unlimited redesign with the ease of moving luminaires within the track. Different fittings and corner connectors allow you to create complex combination not only on the ceiling. The ability to quickly and easily modify the placement of lamps gives you a great flexibility both at the design stage and during use.

MAGNETIC

磁吸系统让安装变得更便捷

Safe, easy and quick to install

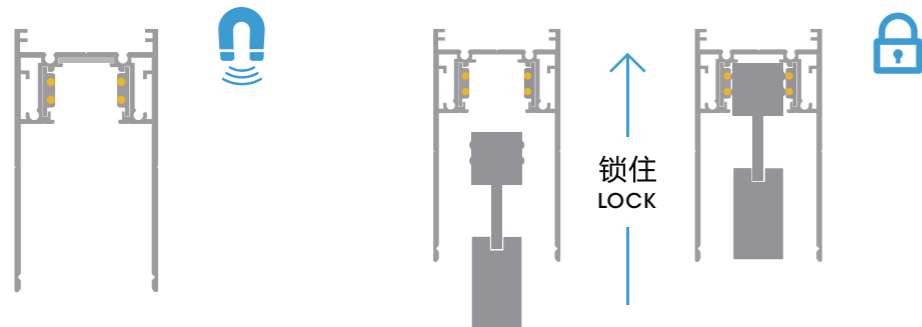

磁吸安装

磁吸结构可以轻松地将本系统相应配套的灯具安全地吸附在轨道内，轻松地来回滑动并完成相应灯具角度的调节，单手即可完成

The voltage inside the track is 48V. This voltage is safe for humans, so it can be used in places within easy reach. No special tools are required to install or moving luminaires within the track. Beam angle can also be adjusted easily without any tools. Exclusive protector is used to ensure the safety.

安全的固定锁住

强力的磁吸功与独有的加强卡扣固定结构，能与相应灯具的匹配，确保灯具与轨道之间通过磁力迅速锁定灯位，并牢牢地固定在轨道上。

MAGNETIC

磁吸驱动电源 Emilux Recessed driver

独家专利磁吸驱动电源，在轨道中安装，
提高空间利用率，安装更便捷。

This invention has been patented by our company.
Easy and quick to install.No special tools are
needed to attach and detach the recessed driver
within the track.
